Graphic Designer / Portfolio

Reach for your **DREAMS** !

CV

Kemberly Vijuan
Graphic Designer

Throughout my career, I have always tried to ensure that the passion and enthusiasm for my work has shone through. Despite my success I have found that it is through a team that I have achieved my greatest potential.

I have learnt that having a platform to question and develop ideas harnesses greater creativity - although realising creative inspiration doesn't come without its obstacles! and challenges. Time management and working to tight deadlines are important in any industry, but the foundations and biggest challenges of design lie in communication.

In all my work, I have relished these challenges and used them to fuel my ambition and maintain my own standards.

Education

Information Communication Technology major in programming
IETI School of Science and Technology 2014 -2016

CV

Banner & Signages

The background is a solid bright yellow. In the bottom-left corner, there is a series of overlapping triangles in various shades of orange and brown, creating a layered, mountain-like effect. One triangle is a deep orange, another is a lighter orange, and a third is a brownish-orange. These triangles point towards the center of the page.
